Create a virtual machine

Administrator account

Authentication type

☒ SSH public key

☐ Password

1

Azure now automatically generates an SSH key pair for you and allows you to store it for future use. It is a fast, simple, and secure way to connect to your virtual machine.

Username *

azureuser

SSH public key source

Generate new key pair

Key pair name *

cloud1_key

Key pair name

cloud1_key

Inbound port rules

Select which virtual machine network ports are accessible from the public internet. You can specify more limited or granular network access on the Networking tab.

Public inbound ports *

☐ None

☒ Allow selected ports

Select inbound ports *

SSH (22)

1

All traffic from the internet will be blocked by default. You will be able to change inbound port rules in the VM > Networking page.
